

Programme Specific Outcomes

UNDERGRADUATE PROGRAMMES

BA/BSc/BCom

B.A. English and Communicative English	
PSO1	Bring in a harmonious blend of sensitive knowledge production and skill development
PSO2	Simultaneous rendering of language use and literary manifestations for a holistic approach towards education
PSO3	Develop knowledge competence in select thrust areas that would provide directions to the students in terms of research as well as career options
PSO4	Recognize the varied possibilities multiple disciplines offer in terms of knowledge creation and skill acquisition
PSO5	Make the students aware of the formation of knowledge and the politics of the same
PSO6	Comprehend the current modes of writings – that which encompasses the issues related to power, race, caste, gender, ethnicity, climate change etc. and realize the role of literature in inculcating social sensitiveness
PSO7	Equip the students to identify and resist the socio-cultural hegemonies and their literary representations through narratives of pluralities
PSO8	Contribute to the realm of knowledge production with an increased intellectual, creative, critical and multidisciplinary capability
PSO9	Enhance the skill attributes in the curriculum and help the students with the same in everyday praxis
PSO10	Focus on specific vocational skills
PSO11	Address the requirements of the language use in a globalized context
PSO12	Practice oriented approach for knowledge creation through skill enhancement
PSO13	Put into practice the theoretical, practical and performative elements within the learning of language and literature and connect it to the everyday realities of life and living
PSO14	Equip the students to enhance their theoretical and practical wisdom to comprehend the regional requirements and contribute to the development of the society and economy
PSO15	Imbibe a research-oriented approach to the study of humanities in connection with the basic understanding of social sciences to initiate a multidisciplinary approach of study

DR. SUMI ALEX
PRINCIPAL IN CHARGE
ST. GREGORIOS COLLEGE
KOTTARAKKARA

BA Political Science	
PSO1	Understand the place of Political Science within the broader spectrum of Social Sciences and allied interdisciplinary areas
PSO2	To improve understanding of basic facts and concepts about political system, including philosophical, constitutional and legal foundations, policy making processes etc
PSO3	Understand the diverse institutions, processes, constitutional and legal frameworks and public policies in one's own country and to compare it across the world
PSO4	Students should be able to differentiate among multiple Political Science perspectives, theories and ideologies from a range of written or spoken genres. They should be able to explain, analyze and articulate contemporary issues and events using such perspectives, theories and ideologies
PSO5	Acquire specialized knowledge about the shaping of the global politics and the diverse theories and approaches that facilitate its explanation
PSO6	Demonstrate the ability to outline and defend a vision of politics for the present and future generations with the aid of democracy, justice, rights, freedom and secularism
PSO7	To promote acquisition of citizenship skills and the ability to understand and appreciate human diversity; and to engage in community life as active citizens
PSO8	To enable students to evaluate and analyze political processes and effectively apply theoretical and analytical skills to address significant issues in the political world by taking political and administrative responsibilities
PSO9	Analyze a phenomenon, an event or a construct with insight, knowledge, reasoning and technical skill by employing appropriate research methodology and draw original and logical conclusions
PSO10	Promote linkages with industry through internships and project works by involving in activities related to Local self-government institutions, Media, Parliamentary Procedures and practices and Survey research and data analysis
B.Sc Mathematics	
PSO1	They will be able to explain the core ideas and techniques of Mathematics.
PSO2	They will be able to recognize the power of abstractness and generalization.
PSO3	They will be able to carry out research with independent judgement.

Dr. SUMI ALEX
PRINCIPAL IN CHARGE
ST. GREGORIOS COLLEGE
KOTTARAKARA

PSO4	They will be able to carry out objective analysis and prediction of quantitative information
PSO5	To acquire proficiency in solving scientific problems by using theory, numerical simulations and experiments. They will be able to develop new variants of the acquired methods if required.
PSO6	To contribute to new scientific research or new applications of research.
PSO7	To select, interpret and critically evaluate information from different sources- books, scientific reports, internet, journals etc.
B.Sc Physics	
PSO1	To understand the concepts and significance of the various physical phenomena.
PSO2	To acquire a wide range of problem-solving skills, both analytical and computational and to apply them.
PSO3	To motivate students to higher studies and research in different areas of basic and

Dr. SUMI ALEX

ST. GREGORIOS COLLEGE
KOTTARAKARA

	applied Physics.
PSO4.	To enhance the student's academic abilities, personal qualities and transferable skills to develop as responsible citizens.
PSO5	To apply the theories learnt and the skills acquired to solve real time problems.
B.Sc Chemistry	
PSO1	To provide the students an in-depth understanding of basic concepts of chemical sciences and enable them with tools needed for the practice of Chemistry, which remains a discipline with much stress on experimentation.
PSO2	To provide a detailed knowledge of the terms, concepts, methods, principles and experimental techniques of Chemistry.
PSO3	To understand the basic concepts, fundamental principles, and the theories in Chemistry and their relevancies in the day-to-day life.
PSO4	To analyses the given scientific data critically and systematically and to draw the objective conclusions.
PSO5	To find out the green methods for chemical reaction for sustainable development
PSO6	To develop skills in the proper handling of apparatus and chemicals.
B.Sc Zoology	
PSO1	To understand the nature and basic concepts of Cell Biology, Biochemistry, Taxonomy and Ecology.
PSO2	To analyze the relationships among animals, plants and microbes.
PSO3	To perform procedures as per laboratory standards in the areas of Biochemistry, Bioinformatics, Taxonomy, Economic Zoology and Ecology.
PSO4	To understand the applications of Biological Sciences in Apiculture, Aquaculture, Agriculture and Medicine.
B.Sc Botany	
PSO1	To develop ability for the application of the acquired knowledge to improve agriculture and other related fields to make the country self-reliant and sufficient.
PSO2	To understand and appreciate the role of biology in societal issues, such as the environment and biological resources, biodiversity, ethics and human health and diseases.
PSO3	To enrich the students with the latest developments in the field of Information technology. Biotechnology, Bioinformatics and other related fields of research and Development.
PSO4	To create enthusiasm to understand more about the beautiful planet Earth and to give awareness to the public the need to protect the all kinds of exploitation.
PSO5	To keep the scientific temper which the student acquired from school level and to develop a research culture.
BCOM	
PSO1	To develop a world in which persons are aware of and concerned about environment and the problems associated with it, and committed to work individually as well as collectively towards solutions of current problems and prevention of future problems.
PSO2	To Developing the analytic and evaluating skills when it comes to making business-related decisions.
PSO3	To help students to develop the computing skills needed to prevent attacks and protect people's data and privacy
PSO4	To acquaint students with the basic concepts, terms & provisions of Mercantile and Business Laws and to develop the awareness among the students regarding these laws affecting business, trade and commerce.
PSO5	To develop the ability to identify and evaluate accounting problems and to draw reasoned conclusions.

Dr. GUMI ALEX
PRINCIPAL IN CHARGE
ST. GREGORIOS COLLEGE
KOTTARAKARA

PSO6	To provide a clear-cut idea about the functioning of Indian Financial Market in general and Capital market operations in particular.
BCOM Computer Application	
PSO1	Students also acquire skills to work as tax consultant, audit assistant and other financial supporting services. Students have choices to pursue professional courses such as CA, M.COM, MBA, CMA, ICWA, CS etc.
PSO2	Awareness of basics of computers.
PSO3	Get practical experience of web designing.
PSO4	Enable students to understand project formulation, Entrepreneurship development, awareness on various Entrepreneurship Development Programme, EDP schemes, knowledge of entrepreneurial skills and to make the students understand the approaches to attain the goals of the business.
PSO5	Students are able to play roles of businessmen, entrepreneur, managers, consultant, which will help learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making.

POSTGRADUATE PROGRAMMES

MSc/MCom

MSc Mathematics

PSO1	To explain the core ideas and techniques of Mathematics.
PSO2	To recognize the power of abstractness and generalization.
PSO3	To carry out research with independent judgement.
PSO4	To set up mathematical models of real-world problems and obtain solutions through structured and analytic approaches.
PSO6	To carry out objective analysis and prediction of quantitative information.
PSO7	To communicate effectively about the subject using ICT.
PSO8	To work independently and collaborate effectively in team work.

MSc Physics

PSO1.	Provide a complete theoretical understanding of the different areas of Physics together with the applied and current fields of research.
PSO2.	Achieve a mastery, competence and analytical skills in the subject at a higher level.
PSO3.	Learn to carry out experiments in basic as well as certain advanced areas of physics.
PSO4.	View Physics as a training ground for the mind developing logical reasoning that can be applied to diverse fields.

MSc Chemistry

PSO1	To strengthen the theoretical as well as the practical knowledge of the student in various research areas in Chemistry.
PSO2	To equip the students to realize the importance of interdisciplinary science subjects and to explore the possibilities to collaborate them with Chemistry.
PSO3	To identify and understand the working of various sophisticated instruments.
PSO4	Learn professionalism, including the ability to work in teams and apply basic ethical principles.
PSO5	To get a clear knowledge of computational techniques, Soft wares, tools for Molecular modelling etc.

MCom

PSO1	To develop application and analytical skill of the provisions of Income Tax Law for Income Tax planning and Management.
PSO2	To provide a comprehensive understanding on the principles of security analysis and develop the skill in portfolio management.
PSO3	To gain expert knowledge of the principles and law relating to Goods and Service Tax and Customs Act.
	To understand the risk management process and its application.

Dr. SUMI ALEX
PRINCIPAL IN CHARGE
ST. GREGORIOS COLLEGE
KOTTARAKARA

PSO5	To inculcate the knowledge of business and the techniques of managing the business with special focus on marketing, Insurance and banking theory law and practices.
PSO6	To create awareness in application-oriented research through research for business decisions
PSO7	Develop an ability to apply knowledge acquired in problem solving.
PSO8	Ability to work in teams with enhanced interpersonal skills and communication.
PSO9	The students can work in different domains like Accounting, Taxation, HRM, Banking and Administration

M.Sc. Zoology

PSO1	To understand the nature and basic concepts of Systematics and Biodiversity
PSO2	To develop knowledge in various biological aspects related to life and its existence
PSO3	To perform procedures as per laboratory standards in the areas of Biochemistry, Bioinformatics, Genetics, Molecular Biology, Ecology, Biodiversity.
PSO4.	To understand the nature and develop skills in biodiversity management.
